

# AVYOL WHITE OILS

## (Pharmaceutical & Food Grade Applications)

Avyol White Oils are highly refined, colorless, and odorless mineral oils engineered to meet the strictest standards for purity. They are widely used in pharmaceuticals, cosmetics, plastics, and food-contact applications where consistency and safety are essential. Free from aromatic hydrocarbons, Avyol White Oils offer chemical stability, oxidation resistance, and long-lasting performance across diverse manufacturing processes.

### Performance Highlights

- Conforms to USP/NF, EP, and FDA regulations for food-grade and pharmaceutical applications.
- Chemically inert, ensuring compatibility with polymers, elastomers, and packaging materials.
- Excellent oxidation stability for extended shelf life.
- High degree of purity with no taste, odor, or color.

### Typical Specifications (White Oils)

Property	Value / Limit	Test Standard
Appearance	Water-white, clear	Visual
Kinematic Viscosity @ 40 °C	10 – 100 mm <sup>2</sup> /s (grades)	ASTM D445
Pour Point	≤ -6 °C	ASTM D97
Flash Point	≥ 180 °C	ASTM D92
Saybolt Color	30	ASTM D156
Sulfur Content	≤ 5 ppm	ASTM D5453
